

VEDA

THE COCKTAIL MENU

Step into our cocktail library where each tippie is carefully thought through to tickle your imagination and thirst for knowledge. Our origin story is humble yet significant. Veda comes from the Sanskrit word "vid", meaning "to know"; it is "knowledge" or "wisdom". It is here that we draw inspiration for this unique cocktail experience, with every element made to elicit feelings of nostalgia - the days where libraries were dominant and encyclopedias were the only way to expand your understanding.

THEORY & KNOWLEDGE

These cocktails were created in a tight connection with Theory of Knowledge, asserted by the International Baccalaureate Organization. Each cocktail represents a certain area of knowledge, inspired by either specific historical moments or historical significance.
